

The True North Freelance

OUTDOOR SUPPORT VEHICLE

Inside of all of us there are times when we feel a primal urge to leave the comfort of day-to-day routine and journey out to the horizon and beyond. That adventurous spirit is well embodied by today's outdoor athlete. Whether it's mountain biking, kayaking, rock climbing, or trail running, the age-old desire is the same - Finding your true self by getting outdoors and pushing your physical and mental limits.

It is in recognition of this modern-day adventurer that Northwood Manufacturing is proud to introduce the True North Outdoor Support Vehicle (OSV). It is the ultimate piece of gear forged to support you in all of your outdoor pursuits. Highly customizable to suit your ever-changing expedition requirements, the OSV is the base camp equivalent of a multi-tool on wheels. Every feature has been engineered for complete utility with attention given to every square inch of available space. Like the athlete it supports in the field, the True North OSV is built to be nimble yet uncompromisingly rugged.

We invite you to experience the first in the True North OSV lineup, the Freelance. Designed completely with the active lifestyle in mind, the Freelance, as the name implies, was made for setting course at a moment's notice, improvising when the conditions dictate, and making it up as you go along – true independence. Where the paved road ends, the Freelance begins.

Through careful research and information gathered from people like you in the outdoor community we at Northwood have put together three option packages – one to meet everyone's needs. The well-appointed BaseCamp Pack comes with all the features you need to get out there right now; the Ascent Pack adds even more utility and comfort for those with more outdoor lifestyle requirements; and finally the Summit Pack – a fully dialed outdoor vehicle with the complete features of the Ascent upgraded with custom aluminum wheels, self-contained, rack-mounted awning and all the additional storage options imaginable.

Does that same faraway horizon call out to you? Whether it is optimizing your adventure potential or rediscovering it in yourself, the OSV is your ticket. Set aside the daily grind, embrace the outdoors on a personal level and in challenging yourself, find your True North and find the true you.

TRUE NORTH - GO FIND YOURS!
